

DONATE

December 2023

New Leaf Foods, Inc. supports the health and well-being of the people of Greater Green Bay by promoting healthy food access and education and by cooperating throughout Northeast Wisconsin to build a thriving local food system in a clean environment.

Donate to Our SeedMoney Campaign!

New Leaf Foods is participating in the SeedMoney Campaign to support our mission of promoting healthy food access and education. The pandemic has made us extremely aware of healthy food access, supply chain issues, and food sovereignty issues. Our goal is to solve these issues, but we need the funds to achieve it. Join us in this journey by donating today!

[Click Here to Donate or Learn More](#)

We are going strong at 75% of our goal! We still have the opportunity to win monetary awards for the strongest finish (most donations in the last week), as well as many cool challenges along the way. In fact, we already won an Ooni pizza oven thanks to wonderful donors! If you are considering donating, please do not hesitate so we can have a greater impact on our community!

Why Should We Eat Seasonally?

In our modern global world, the grocery store shelves are a cornucopia of fruits and vegetables all year round. It's become so routine that we often forget that not everything grows naturally in every season...

Seed Library Cellcom Grant

In case you missed it, the Seed Library won a generous grant from Cellcom in November! Read more about it [HERE](#).

The Brown County Seed Library provides seeds that are free of charge to anyone interested in planting vegetables, fruits and pollinator-friendly plants. Seed donations and monetary donations to purchase seeds are needed to fill the Seed Library cabinet. They also provide educational programs to encourage seed-savers to help replenish the collection for others.
